Alyeska will extend the same considerations to qualified persons of differing abilities, consistent with an individual's ability to perform essential job functions safely.

PRE-EMPLOYMENT DRUG TESTING INFORMATION

Employment with Alyeska is contingent upon successfully passing a background investigation and physical examination. Alyeska requires pre-employment drug testing utilizing hair test collections for all positions. The preferred collection site is from the head (approximately 1/2 inch of hair length necessary), which provides an approximate 90-day window of detection that checks for prohibited drug use. Additionally, urinalysis testing is required for Department of Transportation covered positions. A positive drug test (to include alcohol screening) makes you ineligible for employment with Alyeska and on TAPS. It is important to note, Alyeska does not seek or accept any genetic information as part of the hair testing procedure or any other process that could directly or inadvertently provide genetic information (family medical history).

E-VERIFY

Employment with Alyeska is also contingent upon completion of Employment Eligibility Verification (Form I-9), as compliance with the Immigration Reform and Control Act of 1986 is required. Failure to complete the form and present required documents within three days after you begin work may result in termination. Please complete section one of the attached I-9 Form and bring it to the new hire orientation, along with a document from either List A, or one of each from List B and List C on the attached form. These documents will be reviewed at orientation and returned to you. Alyeska also participates in E-Verify, an Internet-based system that compares information from an employee's Form I-9, Employment Eligibility Verification, to data from U.S. Department of Homeland Security and Social Security Administration records to confirm employment eligibility. Additional information may be referenced on the national website dhs.gov/e-verify or on Alyeska's employment website.
